Welcome to the
Accessible Guide

Would you like to
allow app to track
location

☒ Yes ☒ No

②

Enter location

③

...

Current location

Location to

Location

Saves Routes

If enabled
will give route
to a new
location

can choose
to check routes
from one location
to another

④

End Route

Separate
dots
could be
public

transportation in case user would rather
take a ride due to Route unable to prevent
Certain obstacles Ex: Steep inclines or declines

⑤

Restrictions:

No Stairs

No incline

No decline

Wheel accessible

users
can choose
parameters
for

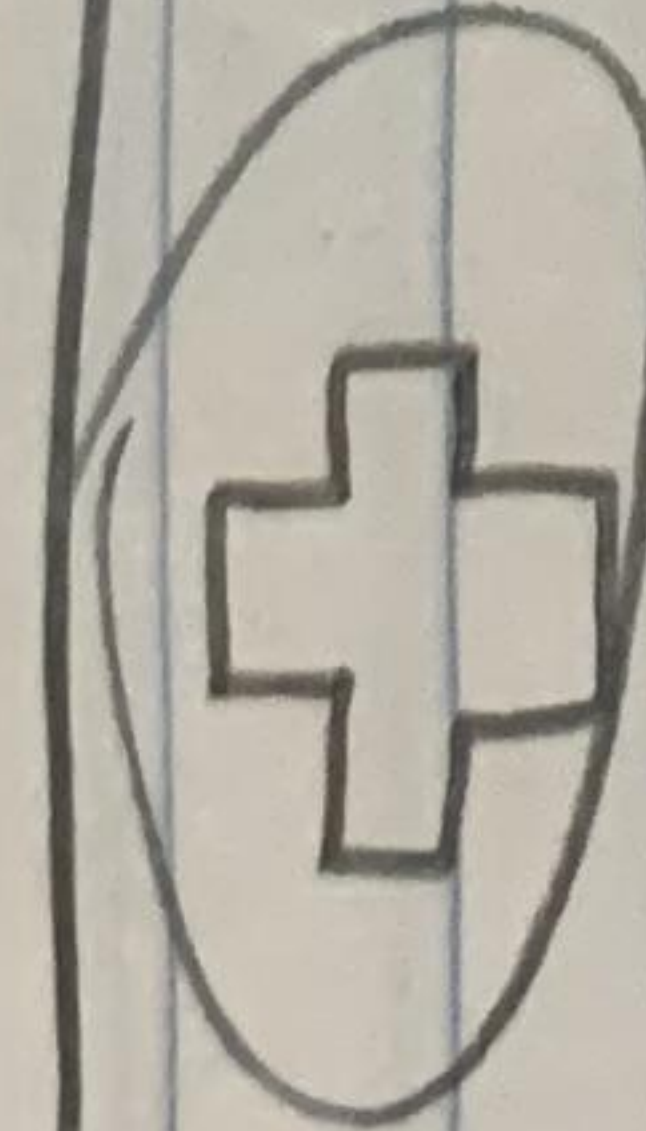

⑥

Estimated Time

5 10 15 20

check settings
for the route
for wheelchair
for motorized
small battery-powered
vehicles

⑦

Are you sure you need EMS?
<input checked="" type="radio"/> yes <input type="radio"/> no

Small cross button allows
EMS to be called and
either access your location
through the app or connects
a call through your phone
with them.
